The boiler is set for automatic sessions (1 hour in the morning, 2-3 hours in the evening), its thermostat controlled so the boiler cuts in and out when the radiators get warm. Problem is it 'locks out' after the first firing of a session, then needs manual resetting.

### **Potterton Statesman oil fired boiler - lock out | DIYnot ...**

I've just moved into a house with a Potterton Statesman C/H boiler. The boiler is set for automatic sessions (1 hour in the morning, 2-3 hours in the evening), its thermostat controlled so the boiler cuts in and out when the radiators get warm. Problem is it 'locks out' after the first firing of a session, then needs manual resetting.
