However, there are various types of presses, distinguished from each other by the way they apply pressure. These include the etching press, which is much like an old-fashioned clothes wringer in its use of two cylinders to apply pressure, as well as the lithographic press, which can be identified by the directly mounted scraper bar positioned above the press bed.

The Basics of Setting Up Your Own Printmaking Studio | ArtWeb

Printmaking is the process of creating artworks by printing, normally on paper. Printmaking normally covers only the process of creating prints that have an element of originality, rather than just being a photographic reproduction of a painting. Except in the case of monotyping, the process is capable of producing multiples of the same piece, which is called a print. Each print produced is considered an "original" work of art, and is correctly referred to as an "impression", not a "copy". Often
